# Insulin and Insulin Therapy An Always Evolving Story

**Bari-Italy  
October 18, 2024**

Aula Magna "De Benedictis"  
School of Medicine

**Chair  
Prof. Francesco Giorgino**

The symposium "Insulin and Insulin Therapy: An Always Evolving Story" will provide a comprehensive overview of the latest advancements in insulin research and therapy. It will bring together leading experts in the field to discuss recent developments and their implications for diabetes treatment, focusing on deepening the understanding of insulin action and managing insulin resistance. The event will explore new dimensions of insulin action, advances in the creation of new insulin analogues and therapeutic innovations. This symposium is essential for updating healthcare professionals on the latest research and improving diabetes management, thereby enhancing patients' quality of life.
